

Council of the Great City Schools

Education & Public Sector · 77 member districts · 7.5M+ urban K–12 students · All 50 states

ABOUT

CGCS is the nation's leading coalition of large urban school districts, representing cities including NYC, LA, Chicago, Houston, and Dallas. It advocates for education policy, provides professional development, and brokers shared services for its 77 member districts — including group purchasing agreements that Engine's model mirrors directly.

PARTNERSHIP SIGNALS

- ✓ 77 districts with centralised procurement authority and group purchasing history
- ✓ District leadership, HR, and finance staff travel frequently for conferences, PD, and site visits
- ✓ Annual CGCS National Conference draws 3,000+ attendees requiring hotel blocks
- ✓ No dedicated travel management platform evident — likely ad-hoc or fragmented booking across districts
- ✓ CGCS has precedent for negotiating group benefits on behalf of members (health, software, services)
- ✓ Revenue share flows back to CGCS — directly aligns incentives with district savings mission
- ✓ Public-sector buyer base responds to cost-transparency, compliance reporting, and simplicity

ENGINE VALUE PROPS — TAILORED

Centralised Travel for 77 Districts

- Single platform replaces fragmented booking across each district's admin team
- Negotiated hotel rates unavailable to individual districts — Engine's network delivers savings
- Transparent spend reporting satisfies public-sector compliance and audit requirements
- Group travel handled natively — no IT lift, no contract complexity

Revenue Share That Funds District Priorities

- 1% rev share on all district bookings = recurring, unrestricted income for CGCS
- No cost to implement — rev share is pure upside from spend that's already happening
- Framed as member benefit: every district saves, and CGCS earns on every booking
- Scalable: as districts increase booking volume, revenue compounds

A Model CGCS Already Knows

- CGCS has a long history of brokering group purchasing — Engine is the same motion for travel
- Superintendent and cabinet travel is high-frequency and budget-constrained — Engine is a fit
- Start with Nationals conference pilot, then expand to all 77 member districts

DEAL SIZE ESTIMATE

Based on ~3,500 annual district trips at ~\$850 avg booking, 5% Engine net take rate, 35% CGCS rev share:

Scenario	Annual Bookings	Gross Travel Spend	Engine Revenue (5%)	CGCS Rev Share (35%)
Year 1 — Pilot (5 districts)	~500 trips	~\$425K	~\$21K	~\$7.5K

Year 2 — 20 districts	~2,000 trips	~\$1.7M	~\$85K	~\$30K
Year 3 — Full rollout (77 districts)	~7,700 trips	~\$6.5M	~\$325K	~\$114K
Full potential (max adoption)	~20,000 trips	~\$17M	~\$850K	~\$298K
